

UWCCC Flow Cytometry Laboratory

Flow Cytometry Best Practices for Principal Investigators

Presented by

Lauren Nettenstrom, SCYM(ASCP)

Thursday, February 14, 2019

7:30am - 8:30am

7170 WIMR I

Flow cytometry is a rapidly changing field. Make sure you are following current best practices.

We will discuss:

- Experimental Planning
- Proper Controls
- Why Isotypes Are No Longer Used
- New & Brighter Fluorochromes
- Tandem Fluorochromes
- Current Instrumentation in the Flow Lab

Although this seminar is geared towards PIs, **all are welcome!**
