

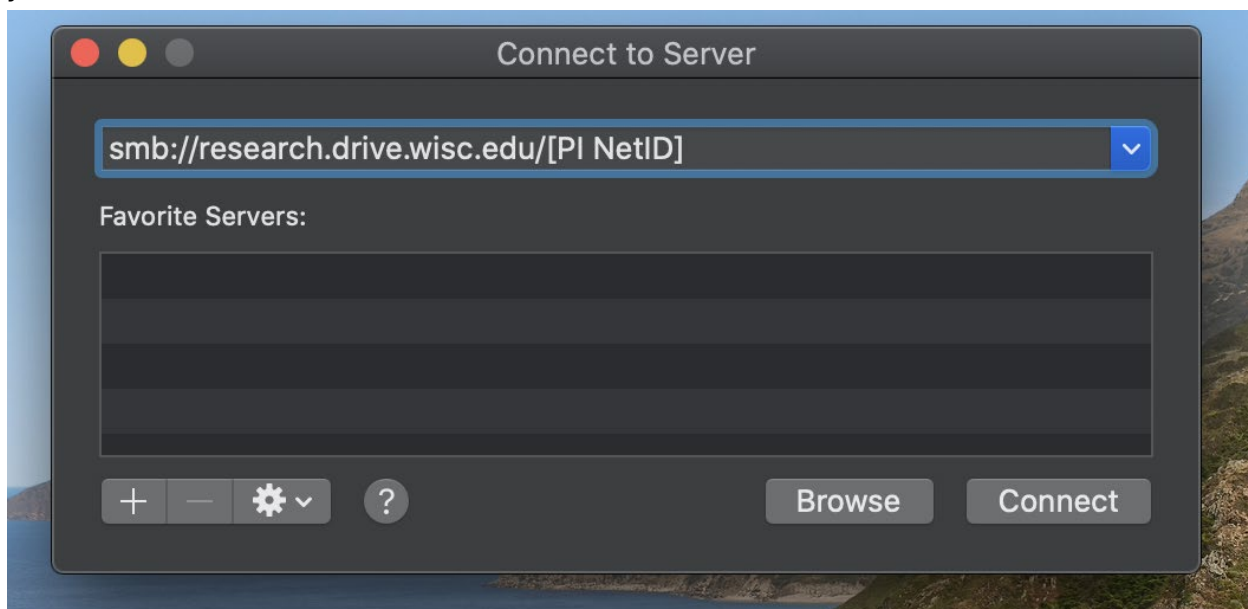

## Mapping UWFLOW from an Apple computer

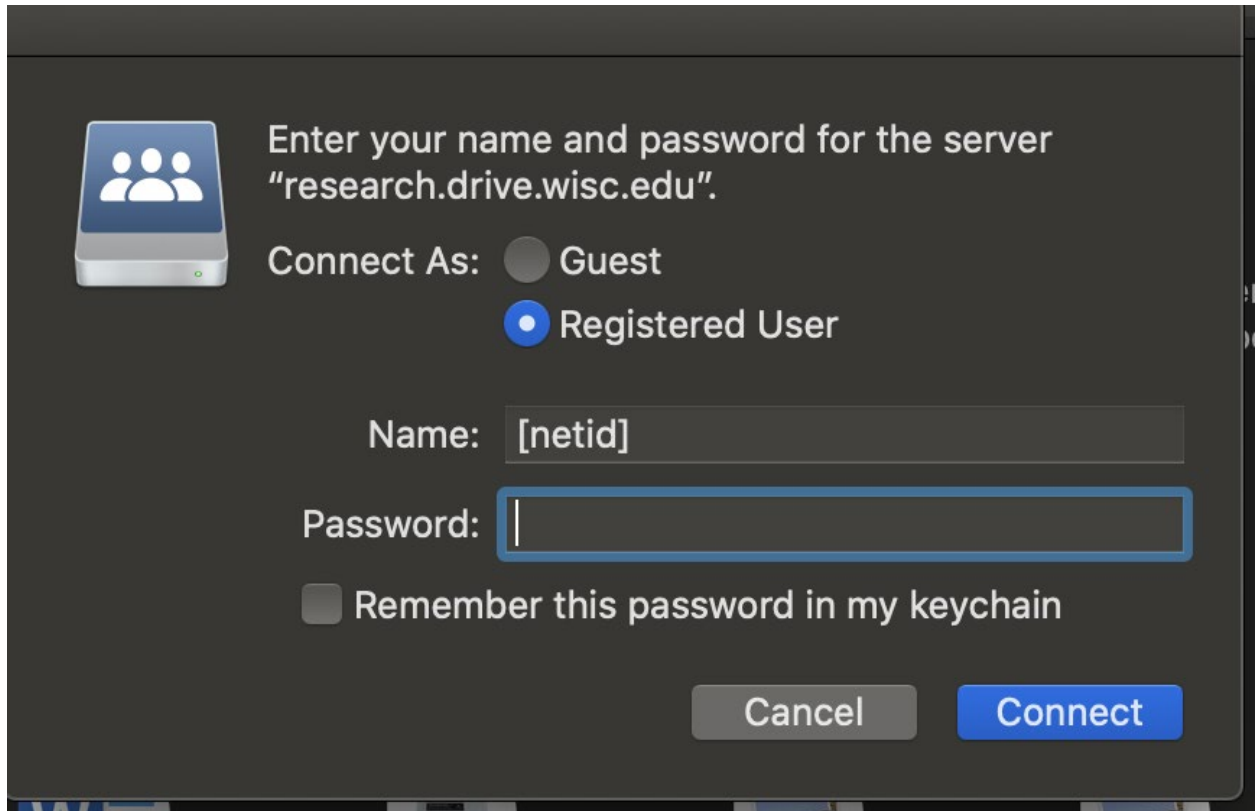

1. If you are off campus or using wifi then you will need to connect to [WiscVPN](#). before using ResearchDrive.
2. Open **Finder**.
3. Click **Go** then **Connect to Server** or use the  $\text{⌘K}$  keyboard shortcut.

4. Enter **smb://dom.drive.wisc.edu/UWFLOW**. Optionally click the + button to save to your Favorite Servers list. Click the **Connect** button to continue.

5. Click **Connect As: Registered User**.

A screenshot of a Mac OS 'Connect As' dialog box. The window has a dark gray background. In the top-left corner is an icon of a server with three white figures. To the right of the icon, the text reads 'Enter your name and password for the server "research.drive.wisc.edu".' Below this, the 'Connect As:' label is followed by two radio buttons: 'Guest' (unselected) and 'Registered User' (selected with a blue dot). Underneath, there are two text input fields: 'Name:' containing '[netid]' and 'Password:' which is empty and has a blue border. Below the password field is a checkbox labeled 'Remember this password in my keychain'. At the bottom right are two buttons: 'Cancel' (gray) and 'Connect' (blue).

Enter your name and password for the server  
"research.drive.wisc.edu".

Connect As: ☐ Guest  
☒ Registered User

Name: [netid]

Password:

☐ Remember this password in my keychain

Cancel Connect

- Enter **Name: [NetID]** and **Password: [NetID password]**
- Check the box labeled **Remember this password in my Key Chain** if desired.
- Click **Connect**.
