

Treating Pancreatic Cancer

What Did We Learn?

- On their own, the treatments did not work well
- Together, the treatments worked well against cancer

Scan For More Info

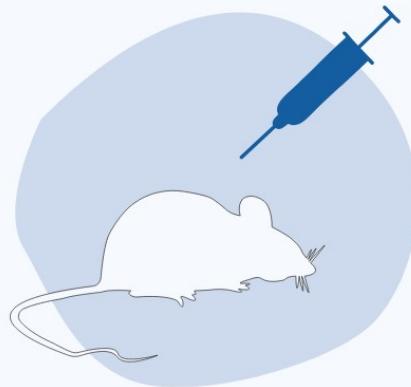

What Did We Study?

- Many people die from pancreatic cancer
- Cancer in the pancreas is hard to treat
- We tested two treatments in cells, first on their own, then together

What's Next?

- Test both treatments together in animals
- See if they are safe for humans to use next
